

USER MANUAL

ICECREAM SHOP APP

System Overview

IceCream Shop(Ibaco) is an application which allows the user to place orders for the icecream. The user can design his/her own icecream by choosing the flavours and toppings. The user can view the order history. The orders are placed through mail by giving user location. This app operates on mobile devices with Android operating system.

System Configuration

IceCream Shop(Ibaco) operates on mobile devices with Android operating system. It is compatible with Android API level 13 and higher versions. Data stored in the SQLite database for future viewing process. The system must have Youtube and Gmail applications installed.

User Access Levels

Only registered users can use application and save data to database.

Steps to follow:

1. Open the FinalIbaco App. You are greeted with Welcome page .Click “Getting Started” Button.
- 2.Next page has a short description about Ibaco. For further description the user can click the “Show Video” button which plays the Ibaco Video in Youtube App.
- 3.The first time users have to register by giving the name , mail id and password.
4. Then the users have to sign in to the application by providing email id and password.
5. Users are shown with varieties of icecream such as IceCream Cake ,IceCream Pizza ,IceCream Bars and Signature Cones.
- 6.After selecting the above variety the user is navigated to Flavours page.
- 7.After which , the user can choose the toppings.
8. The user can either add quantity of the selected combo by specifying the quantity count or add an entirely new combo by clicking “Add another Item”.
- 9.The user can view the profile(“My profile”) , previous orders (“Order History”) and Sign out using the Options Menu in the top Right Corner.
- 10.The user can view his present order by clicking “View Order”

11. Then the invoice of the order placed is shown in the next page where the user can confirm his/her order.
12. The user then shares his location by providing the area , street name and pincode .
13. The location and order details are mailed to the IceCreamShop.
14. The user can provide his feedback through star ratings and comments which is stored in file.
